Spark Program

Grades 4-5

www.mathstronauts.ca

Description

The Spark Program is a new program designed to improve numeracy skills in elementary students (grades 4 - 5) through fun and interactive activities. The program is available for EE in inter to students that Adelaide Hoodless Elementary School, and registration is required on a first come, first serve basis.

In each workshop students will complete a different project including creating slime, coding games, using art to apply math, creating cookbooks while learning about unit conversion, and more! Through the various projects, students will build on their numeracy fundamentals in the areas of number sense and numeration, patterning, geometry, and algebra, with a focus on real-life application and addressing potential gaps in their numeracy education. Here are the first two workshops:

Workshop : Learn Measurements with Slime (ebruary 4,)

Workshop : (ebruary ,)
